Setup

Equilibrio is a turn-based abstract strategy game for two players on a 5x5 board.

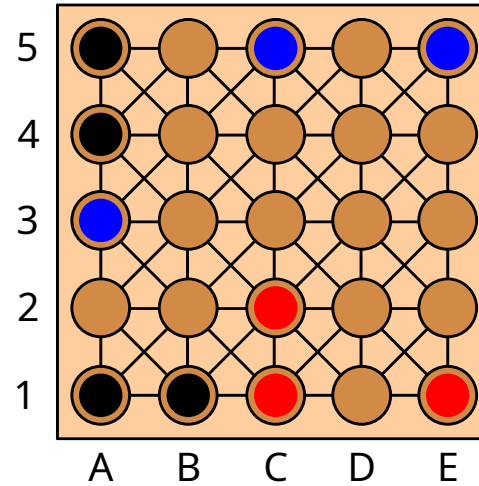

Each player begins with three tokens: One in each corner and one at the center of their side of the board.

Move

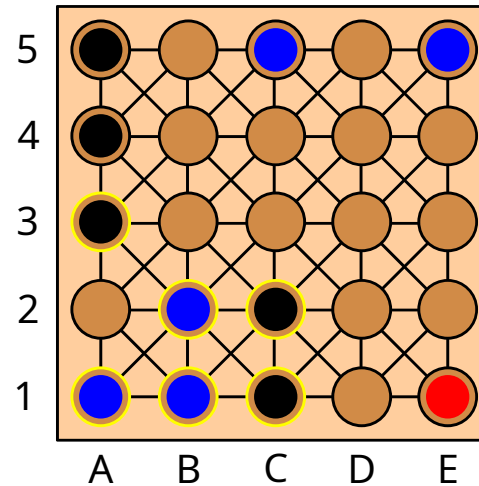

Moves in Equilibrio consist of placing a token on the board.

The new token must be adjacent to at least one of the player's existing tokens horizontally, vertically, or diagonally.

Chaos

When a new token is placed on the board, all existing tokens adjacent to it horizontally, vertically, or diagonally are replaced: Tokens belonging to either one of the players become chaos tokens, and chaos tokens become tokens belonging to the same player as the newly placed one.

Victory

The game continues until a player has no legal moves left, and the player with the most tokens on the board wins.
